

Geni-Cart - 4-Legged Base

Product Description

An innovative design, the Geni-Cart is light and versatile with a stylish worktop surface that is ideal for computing needs in a healthcare environment. Ergonomically designed, the Geni-Cart adjusts in height for each user, a smooth handle for confident manoeuvrability and high durability castors which brake quickly when in use by the bedside. The 4-Legged Base is an ergonomic solution to a fast paced healthcare environment. With a wider front leg distance, the user can move quickly without catching their feet on the base of their cart. Designed with minimal footprint and integrated cable management for non-cluttered space saving, helping to maximise the effectiveness of the working area. Powered with the Geni-Tec™ power system, this medical cart can provide a truly wireless solution, charged in situ or with a power docking system for its 'Hot Swappable' modules. Our OEM design service can tailor our design to your needs, to discuss the options available please contact us for more information.

Features

- Easy antibacterial cleaning
- Lightweight manoeuvrability
- Ergonomically designed, foot well design
- Small footprint for space saving
- Heavy Duty Castors, all Braking
- Robust construction for busy environments
- Custom mount fittings and accessories to suit your needs

- Long life battery module, for shift-to-shift use

Specifications

Specifications

Max Tilt Angle

10 Degrees (in a static tilt test) As per EN-60601-1 section 9.4.2.1

Max Carrying Load

10 kg (Subject to height)

Turning Circle

600 mm diameter

Castors

4 Castors, 100 mm, All Braked

Compliance

CE

Part Number

Description

GEN-64S-PV3-C01-XX

(Height adjustable, Dual dock, Single display mount, 24V output, Bytec Branded, As pictured above)

Applications

- Device Integration
- Surgical Imaging
- Clinical Workflow

Packaging Options

- Pre-Assembled
- Flat Pack
