

## MIT-Cart™ for Laptops

### Product Description

An innovative design, the MIT-Cart is light and versatile with a stylish worktop surface that is ideal for laptop computing needs in a healthcare environment. Ergonomically designed, the MIT-Cart adjusts in height for each user. It has a smooth handle for confident manoeuvrability and high durability castors which brake quickly when in use by the bedside. Designed with minimal footprint and integrated cable management for non-cluttered space saving, helping to maximise the effectiveness of the working area. Powered with the GENI-Tec™ power system, this medical cart can provide a truly wireless solution, charged in situ or with a power docking system for its 'Hot Swappable' modules. Our OEM design service can tailor our design to your needs, to discuss the options available please contact us for more information.

### Features

- Robust construction for busy environments
- Small footprint with low friction castors for easy manoeuvrability
- Custom mount fittings and accessories to suit your needs
- Wireless cable management system, no trip hazards
- Height adjustable or fixed height, no bending
