Product Overview

NEXCOM introduces new IR mini bullet type IP camera which is offering outstanding 2MP image quality. NCr-212-OVR, which is available for both indoor and outdoor working scenarios, is suitable for building surveillance solution, DWDR / Smart IR can overcome evaiation light condition continued to provide crystal clear image output. IP67 makes IP camera ideal for all kind of extremely working behavior.

1080P @ 30 fps

NCr-212-OVR supports high-performance H.264/MJPEG compression technology and offers extra smooth video at up to 30 fps in 1080p. Furthermore, Video ROI [Region Of Interest] function reduce bandwidth and storage requirement, providing users with the best option in bandwidth flexibility and storage efficiency.

Smart IR

Smart IR is superior to the traditional IR by automatically adjusting IR output in response to the distance of the object in view. The closer the object,the dimmer the IR will be. This will avoid object over-exposure commonly seen in cameras using traditional IR functions.Over-exposure makes it almostimpossible to accurately recognize human faces or other vital characteristics.
